

## Polycraft 450 Drifter Runabout Our Pack 3

\$38,090

### FOUR-STROKE T60 High Thrust

The high-thrust T60 has been specifically designed to provide the extra grunt when you need to move big loads such as sailboats and heavy pontoon boats.

Utilising a dual-thrust design the T60 produces twice the thrust of comparable two-strokes within the 2,000 to 3,000 RPM range, while delivering Yamaha's legendary reliability, durability, and efficiency that Yamaha Outboards are renowned for.

The key mechanical difference between the T60 and the standard four-stroke platform is the use of a higher 7.33:1 gear ratio. This allows the T60 to spin a much larger propeller, generating more power to the water and resulting in less slippage.

#### ENGINE FEATURES

- Higher gear ratio, delivering more thrust for heavier load.
- Dual thrust propeller delivers instant power in both forward and reverse.
- Precision Multi-Point Electronic Fuel Injection delivers the exact amount of fuel needed for optimum performance.
- Exclusive YDC alloy for maximum corrosion protection.
- Freshwater flushing device for easy and quiet maintenance.
- Compatible with all of Yamaha's premium colour and digital gauges.

SPECIFICATIONS	
Engine Type	Inline 4 - 4 Stroke
Configuration	SHC
Ignition Key	✓
Prop & Shaft	61 x 17mm
Displacement	60cc
Rev. Max RPM	5000/6000
